Certification of Authenticity

This is a piece of original artwork. It is printed by hand on 80lb Wausau Royal Linen acid and lignin free paper and is mounted and matted using approved archival techniques and mat board. Each print in the edition of 100 is subtly different and is inked and printed individually with great attention being given to quality. Unlike a reproductive print, these works are conceived and executed solely as relief prints and are not reproductions of artwork originally made in another medium. Once the edition is completed, the block is defaced and discarded and can never be used again.
